Complete Annual
Preventative
Maintenance
For your
HVAC Equipment

Your family will be more comfortable while you are saving money!

The amount of money that is wasted each and every day of the year by the air conditioning and heating systems in most homes is incredible. There is no reason for that to occur and we're in the business of correcting the problem.

Not only is it possible for you to save significant money on your air conditioning and heating operating expense, you can at the same time enjoy a more comfortable and healthier indoor environment.

Our service agreements offer lots of value. Precision tune-ups and professional cleanings on the air conditioning and heating systems are pre-scheduled on an appropriate frequency customized to your particular application.

You save significant money on your utility bills, you experience far less expensive and inconvenient service calls, and your equipment lasts longer.

You will be considered a priority customer placing your needs at the top of the list. Should you ever experience a service call the normal rates will be discounted 10%. As an added benefit you will **never** pay an overtime rate.

Many people that wait until the cold hits find that their equipment fails at the most crucial time. A tune up can reduce the likelihood of failure of your equipment and catch many other problems which could result in expensive repairs.

Horizon is an employee owned company with over 120 years combined experience. Give us a call to arrange an appointment scheduled at your convenience. We can then fully explain the program and address any of your questions.

We at Horizon Heating & Air Conditioning, look forward to providing prompt, professional service.

We will strive to achieve an open line of communication via e-mail or phone.

We welcome any questions or comments.

Special pricing for your neighborhood
2 Tune-Ups \$125 (Fall/Spring)
